

# Press Console Viewing Systems

## Models CVEX & MCVE Viewing Systems

CVEX and MCVE units are priced individually due to unique design requirements.

**It is always necessary to receive a completed CVE Specification Form prior to providing a formal price quotation.**

### CVEX Floor Mounted Viewing Systems

The CVEX system is custom tailored to fit a press control console or work/viewing table. It is available with or without side walls and comes complete with LiteGuard II system monitor. The size ranges are as follows:

#### Model

#### Size Range

depth width (min-max)

CVEX-1 w/side walls	36"	52" - 70"
CVEX-1 w/o side walls	36"	52" - 70"
CVEX-2 w/side walls	36"	98" - 140"
CVEX-2 w/o side walls	36"	98" - 140"
CVEX-3 w/side walls	50"	52" - 70"
CVEX-3 w/o side walls	50"	52" - 70"
CVEX-4 w/side walls	50"	98" - 140"
CVEX-4 w/o side walls	50"	98" - 140"

### MCVE Modular Color Viewing Systems

The MCVE system is a ceiling mounted custom tailored viewing environment designed to provide accurate viewing conditions on the viewing surface while blocking ambient light sources. Rear and side walls are optional and completely modular. The MCVE comes complete with LiteGuard II system monitor. The size ranges are as follows:

#### Model

#### Size Range

depth x width

MCVE-1 w/side & rear walls	30" x 60"
MCVE-1 w/o side or rear walls	30" x 60"
MCVE-2 w/side & rear walls	30" x 120"
MCVE-2 w/o side or rear walls	30" x 120"

**\*\*Larger model MCVE systems are available - contact GTI for details.**

MCVE's can be extended to provide controlled viewing over very long (eg web) press consoles. Image at left is from LP Thebault in Parsippany, NJ.
